

This report is a digital version of a published geologic map by Brabbs (1989). The graphic portion of the report is proprietary and has not been reviewed for conformity with U.S. Geological Survey editorial standards. Any use of trade, product, or firm names is for descriptive purposes only and does not imply endorsement by the U.S. Government. This database, identified as "Geologic Map of the California Coast Range, California," digital database," has been approved for release and publication by the Director of the USGS. Although this database has been subjected to rigorous review and is substantially complete, the USGS reserves the right to revise the data pursuant to further analyses and review. Furthermore, it is released on the understanding that the USGS nor the United States Government may be held liable for any damages resulting from its use or unauthorized use.
